JL - Possibly from the weather I've been feeling lousy and unstead so I've been sitting with the air conditioner on and finished the Schweiker report I had read & annotated all but the appendix. I've just completed it. It would of I can't get into minutes & be specific about what we have there is no reasonable question about fact: This is a completely dishonest job so dishonest the FBI pulled in the appendix & cited that in the text by unfaithfully edited already biased fact! One obvious example is the Perdum-Lowery story. Knowledge of a last minute retraction while confirming their parts in the LHO plot. The chronology on LHO as an FBI only agent begins 1/28/64, but on 1/22, 24, 27/64, which are never mentioned... while subsequent bumbling agents the mob - often subtly - Schweiker omits mention of the meeting at the Habana in which munitions were stored - Mike McLaney's brother... ask Bud if he knows who "T" is. If he says he does not think ask him to see if he can learn if it is Davis. I think it may be. Davis is Latin-American. His mother is Cuban. There are many clues - One apparent reason - except LHO & Jack Gop Ruby back of which I presume Hunt is not aware. In his writing his name is the 10 volumes from Warren Report. The incomplete edited removed all of them, I'm no but it is in the unpublished appendix. 2/1 did not give you a copy I will when you are next here. If Davis or any of his matchmates of AMLASH there never was any security not the most minimal. You might want to know that Davis' top man at the camp was one Pancho, I think Victor. The Schweiker editing of the Bringuier involvement in this is factually wrong & wrong in effect. This parallels to what is unclear in the Schweiker report. Not the explosives dump at the McLaney home near SLIDELL (not New Orleans) To the Davis camp, of which I have photos taken for me by the St. Tammany Sheriff's Dept. / My farm aide for earlier gave me an accurate description of it. I have just spoken on account from Davis' then girl friend who was with him on the mad, nocturnal dash to Mobile its breakup. I won the 20 only missed the transportation to Miami Bringuier's help, & a time later then Schweiker says, was limited to 1 Thank & 20.00. I have the check. The Schweiker misdating of the Jesse Oswald - Bringuier meeting is a very serious one. It was not 8/2 & 5, Bringuier's lesion, but late May. I have three accounts & repetitious contemporaneous Leads including would Bringuier's signature. One of my Dave was kidnapped the day Ferrie died, taken out of N.O. for a week. His account I have on tape, by my invitation in the presence of his lawyer, with a confirming family member on the tape... I have not better explanation than Schweiker dedication to Fred. Please tell Bud none of this to anyone. Thanks if you can now please make me 5 copies of this.

I had a hunch that fed as this was CBS news still would not touch it. So I took in Re CBS net TV news at 6:30pm on Ch 9. For the just time within my knowledge CBS news totally ignored CBS' prime Sunday talk show. It did not totally ignore it, however, it reported a denial of CBS cloud seeding to influence weather adversely affecting the Lubbock crop
